MAS
TIME SAVING EPOXY RESINS

How epoxy and varnish can save you time from start to finish.

Start with MAS Epoxies products that provide a structural, non-blushing clear finish to your wood. For added protection to your epoxy work, apply Bristol Finish. A two-part, acrylated urethane varnish that protects your bright work from the sun. Producing your choice of glossy or satin finish. This combination of MAS epoxy and Bristol varnish is all you need from start to finish.
