

Velocity™ LT

Long-Throw Random Orbital Polisher

Long throw Orbital Polisher is dual action orbital polisher designed for the quick removal of paint defects. Features a soft Start Acceleration Ramp – to avoid kickback effect and compound/polish splattering, the soft start power trigger supplies a smooth starting acceleration ramp when the polisher is engaged (turned-on). Optional washer modification to achieve maximum defect removal ability by placing the included washer between the backing plate and rubber housing to induce faster pad rotation. Also included is an anti-fatigue Trigger Lock Button. This allows the power trigger to be held in place while buffing/polishing the paint.

- Powerful 750-watt, 7.5-amp motor
- 15mm or 21mm long throw orbit.
- Premium BOSCH™ bearing construction.
- Precision-machined counter-balance
- 5" and 6" vented flexible urethane backing plates
- Orbits per minute (OPM):
VLT-015 (Min 2200, Max 4800) ****Special Order****
VLT-021 (Min 2200, Max 5200)
- Soft start trigger throttle
- 13-Foot silicon-rubber 16 AWG power cord with cord support
- Rubber fore-grip, "Hexed" mid-body grips and pistol grip
- Quick access brush side ports
- Includes Allen key wrench, replacement carbon brushes, washer modification and grease tube
- Also includes right-angle handle and D-handle.
- 120V/60Hz.
